

KEEP TEXAS BEAUTIFUL

What is BigBelly?

A Solar Powered Trash Compactor, holds 5 times more trash than a traditional trash can used for pedestrian trash.

It is completely enclosed keeping pests out,

LITTER and Odor stay in!

When trash goes in the BigBelly it can't get out!

BigBelly proves that waste minimization and on-site compaction is not only good for the environment, but good for the bottom line. Any area that is chosen to place the BigBelly is responsible to pick up the trash as usual. With the BigBelly they will cut down pick-ups by 80%, reducing labor by 80%, gas usage by 80% and trash bags to the landfill by 80%, also reducing their bottom line!

Where are BigBellies being used?

BigBelly is used in any area where there is pedestrian trash: parks, beaches, campus', downtown areas, sports facilities, national parks, campgrounds, lakes, rivers, trails, and more.

How can we partner?

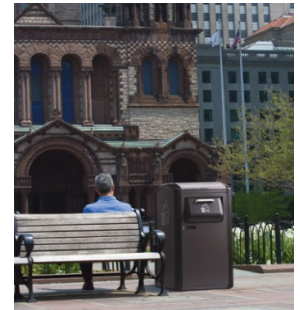

BigBelly is the perfect product for **Business Sponsorship**.

It is "in your face" **GREEN**. "Solar Powered Compactor"!

Businesses wishing to help keep our environment clean and litter-free, will be proud to sponsor a BigBelly. We that businesses are looking for ways to be more **GREEN!**

Their name and logo can be on 1 side of the unit, there are 3 more sides that can be used for public education. Keep Texas Beautiful can add great information for the public, to help them also be more **Green**. For instance it can encourage people to scan their immediate area, pick up any litter they see and have it "Smashed!".

There are as many good ideas for this education opportunity as there are KTB groups. And remember, the information can change, with ad mounts you can just remove one message, and replace it with a new one.

Advertising and KTB Revenue possibilities

Your KTB group can acquire a local sponsor, which will pay for the unit, and have ad revenue for the life of the BigBelly.

What about Recycling?

Introducing the new BigBelly Recycling Units.

They look just like the BigBelly, do not compact, but are still completely enclosed keeping **pests out and litter in**.

The BigBelly and Recycling units can stand alone or mount together to become an all in one kiosk.

Please contact **Kathy** at **817-946-3107** or **kathy@solartc.com** with any questions or, to exchange ideas.
